

Disable Jetpack subscriptions CSS (3.2+)

Quickfix for annoying additional CSS from Jetpack.

I've searched for a solution for this issue, the thread I came across^[^1] and it's first comment together solved it, so the whole solution together:

```
<?php
add_action( 'wp_footer', 'deregister_css_js' );
add_filter( 'jetpack_implode_frontend_css',
'__return_false' );

function deregister_css_js () {
    wp_deregister_style( 'jetpack-subscriptions' );
    wp_deregister_style( 'jetpack_css' );
}
```

This should do it.
