

# Amsterdam - Morning at RAI

PENTAX K-5 II s, 50.0 mm, f/6.3, 1/10 sec, ISO 800 | smc PENTAX-DA 50mm F1.8 | CC-BY-NC-ND-4.0

It may not seem like, but was taken at a morning, when people started waking up and getting into the city.

I don't usually do this, but I cropped the image a little, dropping the very bottom of red tail-lights, and the very top of not too significant blues. Without the red tail lights it gives more of a morning expression in my opinion.
