On our way to Herefordshire we wanted to stop somewhere to eat - because finally it's allowed to sit outside a pub instead of takeaway. When we spotted the Plough in Ford, we stopped, though originally because the view was absurdly beautiful. By the time we got to eating and taking our camera out, the sun was gone, sadly, but even without sunshine on the hills the scene is remarkable.

coordinates: 51.963, -1.873
