

Gorropu Gorge

PENTAX K-5 II s, 0.0 mm, 1/60 sec, ISO 80 | K or M Lens | CC-BY-NC-ND-4.0

Gorropu Gorge is gigantic, peaceful, quiet, and quite steep to get to when walking. There are signs up at the top of the hill before starting to descent that it's no a light walk, and I have to admit, it's a decent climb down and then up, but it's worth it.

Due to the size of the gorge, it's hard to show and represent it in photos, so I decided for trying to capture the colours that surround you when touring through it.
