

Industrials - Lini

There is a relic in Budapest from a previous era, called Csepel Művek[¹]. During its good ol' days, it gave work to 20 000 people, had its own infrastructure, internal post network, and so on.

Sadly half of it is abandoned, including some large halls, abandoned and left to rot, with even their floor taken away.

We took some photos with Lini there a long time ago; this is the one I liked the most.
