

La Caldera de Taburiente

PENTAX K-5 II s, 35.0 mm, f/5.0, 1/500 sec, ISO 80 | smc PENTAX-DA 35mm F2.4 AL | CC-BY-NC-ND-4.0

The very top of La Palma is the Roque de los Muchachos with it's 2426m height. On cloudy days, this is the view - that pointy thing in the distance is the Teide on Tenerife, way above the clouds, with it's 3718m.

coordinates: 28.779, -17.941
