

London Colours

PENTAX K-5 II s, 50.0 mm, f/4.5, 1/160 sec, ISO 200 | smc PENTAX-DA 50mm F1.8 | CC-BY-NC-ND-4.0

I've worked close to this station; used it basically every weekday in the morning and in the afternoon for 9 months, and I've never seen these colours before.

London is beautiful at the end of September.

coordinates: 51.517, -0.082
