

# Slovenský raj - Mist after rain

petermolnar.net

After we've experienced one of the heaviest rains I've ever seen the firs slowly started to appear from the mist.

I had to ask Nora to hold my rain poncho over the camera and the tripod while I took the picture, since the rain was still falling and the D80 is, unfortunately, no weather sealed enough for this.

coordinates: 48.878, 20.341
